Subject: Float

Hello all,

Think we have a plan for freshening up our float in time for Pumpkin Show.

We are working on a couple of areas that need structural/grass repair.

If you can help, we will be meeting Tuesday at 5 before rehearsal.

I picked up grass carpet, and have some 1/2 inch plywood. I am working on paint.

Will probably need a saw of some kind and a staple gun and anything else that you might think of for a small construction project.

I am putting together a list of music for Pumpkin Show. I am open to suggestions! Looking for your input!

Thanks

Dave
