That's it, for now. But it is very possible that more will be forthcoming.

And, we have picked up another new member...Brent Umina who plays the Baritone. Glad to have you with us, Brent. Brent makes our 69th member.

Have you noticed how Cliff ends almost all rehearsals? He says (but not in these exact words) "Get those people who aren't here to rehearsal next week!". There's a reason for that....Although most rehearsals produce in the mid to high 30 members, that's a long way from 69. We have to know the music, if we are to do a good job in concerts. Our reputation in the community is growing....and will continue to grow IF we can continue to play well. Only attending rehearsals can guarantee that. Sure, most of you can play and play pretty darn good, BUT, its the playing TOGETHER and playing as Cliff wants that makes the music sound good.

OK, gang, we are ready for the 1979 concert season...LET'S MAKE IT A GOOD ONE.

see ya
